Highlights

iPod and MP3 audio listening
Guests can listen to music from the source of their choice (iPod, other MP3 player or audio output from their PC) through plug and play connection with 3.5 mm audio jack

Viewing of video media
Viewing of video media from PC, camcorder, DVD player and various other devices is supported through VGA, composite audio/video, S-Video and HDMI connectors

Interactive entertainment
Game consoles can be connected to the TV through composite audio/video or HDMI connectors.

USB charging
USB 5 V power socket allows guests to charge their personal devices.

Select input press on button
Press on button for easy input selection.

Indicator lights
Indicator lights provide easy to understand feedback to guests by showing which input is active.

System configurations
Connectivity Panel supports various interactive and entertainment hotel TV system configurations through industry standard Philips SmartPort protocol.

Stand alone configurations
Seamless integration with Philips TVs in stand alone configuration is supported; see compatibility list.

Multiple mounting options
Philips Convenience Panel can be mounted in various ways, e.g. in the wall, on the desk or as a furniture build-in. An optional desktop kit is required to mount the panel on a desk.

Built for commercial use
Philips Connectivity Panel is a commercial product, built with high-quality materials for intensive daily use by hotel guests.
